

What is the maximum circuit size I can use?

The maximum circuit size is the Panel size less 20mm - to allow for Fiducial in each corner and 10mm edge.

The Step/Repeat Standard Gap is 8mm .

Hence:

Panel A = 110mm x 190mm Maximum Circuit Size.

Panel B = 180mm x 240mm Maximum Circuit Size.

Panel C = 230mm x 310mm Maximum Circuit Size.
